

Team FAQ's

What is a team?

An *Investors Group Walk for Memories* team consists of two or more participants who are participating in the *Walk for Memories* and are looking to support each other with their individual fundraising. All you need to do is choose a team name, a team captain, and register as a team.

Are the fundraising requirements different for team members than for individual walkers?

No. Just like individual walkers, each team member is encouraged to raise at least the minimum fundraising level. The purpose of a team is to support each individual in doing more, not less, than they could do on their own.

Can a donor make a general donation to an entire team?

Absolutely! This is particularly easy if the donor makes the donation through your Team webpage. Ask your Team Captain for a link to the Team Page.

Can we set up a single fundraising webpage for our team?

Yes! Not only do you have your own fundraising page, each team also has a Team page to make this option easy for your donors. The Team Captain will set up this page when they are registering - ask your Team Captain for a link to the Team Page, or go to walkformemories.com to register by Joining a Team!

Can a team fundraise together?

Absolutely! In fact, we encourage team members to share fundraising ideas and collaborate on fundraising events. It may be much easier to fundraise as a team than as individuals. Keep in mind that we really encourage each team to raise at least the minimum fundraising level – and hopefully more! – for each team member.
